STATEMENT:

A lot has changed since my grandfather hauled freight between Nome and Teller in 1910, but Alaskans still care about the same things – good schools, good jobs, and responsible government.

GOOD SCHOOLS: Our future depends on the availability of quality education for our children, young adults and adults. We must make a long-term investment in education.

GOOD JOBS: I support a gas pipeline, and will work with fellow legislators to make the pipeline a reality, and ensure that those new jobs go to Alaskans.

RESPONSIBLE AND OPEN GOVERNMENT: Elected officials have the responsibility to do their jobs while they're in Juneau. If elected, I will work to create a long-range fiscal plan that works for all Alaskans and protects our state's permanent fund.

With all due respect, the incumbent has had his chance and our State government is clearly on the wrong track. It's time for a change.

It's time for the Senate to find answers to the state's problems rather than excuses. As your Senator, I will do just that. For nearly 30 years I held leadership positions throughout Alaska in law enforcement and corrections, working with Alaskans to keep our citizens safe. I know how to work with people in tough situations and get things done.

I'm running for the legislature so I can apply my proven leadership and management skills in Juneau. I know we can pull together once again to solve the problems facing Alaska. **It just takes leadership.**

I would appreciate your vote this November.
